

Software for devices “TKA-PKM” (50-65)

Software for devices “TKA-PKM” (50-65) (data carrier with software, communication cable).

SYSTEM REQUIREMENTS

- IBM compatible computer;
- Operating system Win98 / XP / NT / 2000 / Vista / Seven;
- Free USB port.

Unique protocol.

Equipping the USB interface allows you to: expand the capabilities of the device without prejudice to the time of information retrieval, abandon paper media while reading the microclimate parameters.

Devices of the TKA-PKM (50-65) models can be connected via a half-duplex synchronous serial interface (USB – virtual COM port) to a computer or other controller.

Software (delivery set of new devices of 2017 release):

- [Monitor_PKM \(50-60\) \(*.exe\)](#) – software for monitoring instrument readings
- [DateClockSet_PKM \(50-60\) \(*.exe\)](#) – software for reading saved data
- [Download virtual COM-port driver for Win XP / 7](#)
